

PART OF THE
RAIL PATH EXTENDING FROM
THE CENTRE OF
MUSASHI-
KAWAASU TO
TOWARDS THE
WEST

THE
NOYAMA
KITA
RAIL
SIDE
PATH

PAUSED
THROUGH A TUNNEL
LEFT OVER FROM A
SHALL RAILROAD
THAT WAS USED TO
CARRY BRICKS AND
OTHER MATERIALS

Why
there
of all
places?

I've never
remembered
the name for
years before

So
that's
where

A pool,
that...

Oh yeah,
I went to a
pool around
there when I
was little.

He did
go to that
after all—
Looking
at it again
I'm starting
to remember
it, though.

武蔵・村山・林
付き合ってみた。

なるあすく

Come on,
hurry up!

hahaha

...YOU
ARE
NOT
IMAG-
INING
ME IN A
SWIM-
SUIT
RIGHT
NOW,
ARE
YOU?

We've been
together
before.

HE
DIDN'T
DO IT.

WHAT
ARE YOU
TRYING
TO SAY?

Just wait
for the right
moment,
and...

40

BOOM

EYE

Tap him with
all your might.
You'll score a
direct hit with
your weaponry!

That I surely
take him down
in one hit. His
face can become
clearer with the
blast!

MURDER
COULD I
BURN FROM
BEHIND THE
MURDER

SLEEP

All you have to
do is the sky of
the dark it work
up your courage
and face him.

NOTE

T/N: Use Google Street view at 35 758632N 139 386943E and look northeast. There are several photospheres taken inside the tunnel, actually I think the one at the entrance depicted in this panel is at 35 759411N 139 390731E.
